Centreshot is a product
and initiative of:

Reaching a Generation's mission is to influence the influencers in the lives of children, youth, and families through creative products, programmes and the constant development of leaders. It is firmly established in our hearts that all our efforts and investments are part of a movement; a movement to see lives touched with a message of true hope.

Reaching a Generation partners with companies, communities, churches, schools, hospitals and other Non Governmental Organizations for the purpose of positively effecting the lives and destinies of the children of South and Southern Africa and giving a message that there is hope regardless of the huge challenges facing our world today.

a programme ideal for
churches & schools!

MAKING CHRIST THE TARGET OF OUR LIVES!

Strengthen relationships in family as you mentor young lives
using archery as a tool to reach
your community with God's love!

HOW TO START

- 1 FIND CHAMPIONS** - Find individuals in your community who have a passion for archery and mentoring the children and youth of your community. No prior experience is necessary!
- 2 BUILD A TEAM** - Contact the **Centreshot** head office for information on how to build your team through team and individual training, becoming archery instructors.
- 3 LAUNCH CENTRESHOT IN MY COMMUNITY** - Launch **Centreshot** in your community and begin competing nationally, as you mentor the young people around you.

COOL STUFF!

OUR TRAINERS ARE COMMITTED TO WORK WITH YOU TO ENSURE THE SUCCESS OF YOUR CENTRESHOT MINISTRY!

BENEFITS OF CENTRESHOT

OUTREACH/EVANGELISM - Centreshot uses archery to bring people from the community into your local church to learn about the outrageous love of Jesus.

BRINGING FAMILIES TOGETHER - Centreshot becomes a vehicle to bring entire families together to participate in a shared experience.

INVOLVES CHILDREN IN COMPETITION - Compete with your club or school in NASP national tournaments and achieve provincial and national colours.

Today's children are raised in a world that tries to eliminate risk but **children love adventure**, they want to take risks and do things they have never done before. Centreshot captures that sense of adventure by **developing a child's skills in archery** while **developing their relationship with Jesus Christ** at the same time.

Centreshot creates an opportunity **for parents** to learn how to teach the life skill of archery and Biblical lessons. Entire families can participate together and it's a **great way for fathers** specifically to interact with their children in a Christ focused activity. In schools and churches the Centreshot instructors take on the role of mentors in physical discipline and training, as well as in areas of spiritual significance.
